

Spotter tours

Information and tips on registration and expiration

FRANKFURT AVIATION FRIENDS SPOTTERTOURS

INFORMATIONS

About the Spotter tours

This flyer is intended for information on the expiration of the spot tours. Please read it carefully, it is to be taken note of and is considered as consent to the conditions of participation.

The maximum number of participants is 20 persons, the minimum age for participation is 16 years. Valid passport is required.

Costs: 40 euros / person, the tour takes four hours.

If the limit is exceeded by a maximum of 20 people, the applications received in the following list will be recorded in a follow-up list and the participants will be informed - also in the order of the receipt. The order of registration is valid.

There is no claim to perform the spotter tours!

Short-term cancellations and changes are reserved. No reimbursement of expenses etc.!

Registration

To participate in the spotter tour you need a registration, which is downloaded as a PDF form on the website Frankfurt Aviation Friends and has to be completed completely electronically (on the computer). Then print, sign and send immediately to tourinfo2@frankfurt-aviation-friends.de.

Forms that are not fully completed (including unsigned forms), as well as application forms that are not included in the PDF file format, will not be considered. Exceptions are not made.

The download of the registration form will be deactivated with notification one month prior to the start of the tour in order to ensure a fast organization of the tour. As the processing of the applications takes some time, the applications should be sent to tourinfo2@frankfurt-aviation-friends.de within three days .

Application for short-term ID

A short-term ID card is required to enter the apron in the spotlight. The current short-term IDs can be downloaded directly from the web portal of the FRAPORT AG Airport Service Centers (SCF) Download.

Again, these applications must not be completed manually, but also on the computer. Handwritten applications, incomplete or incorrectly completed applications, as well as applications not received in PDF format, are rejected.

Please send the completed and signed application for the short-term ID immediately to the tourinfo2@frankfurt-aviation-friends.de send. After successful examination, he / she shall be deemed to be a confirmation of attendance.

After the test has been carried out, the application is forwarded to FRAPORT for further processing. Requests sent directly to FRAPORT will not be considered. A sample form for completing the application will be sent to the participants upon receipt and examination of the application

After the registration

The participants of the tour will receive their confirmation of participation after checking the application and the application for the short-term ID, as well as up-to-date information about the meeting place and other procedures by e-mail.

The tour begins

The issue of the short-term IDs takes place at the Gate 3 (Tor 3). The participants must arrive at Gate 3 one hour prior to the start of the tour in order to ensure a smooth passport.

Gate 3 (Tor 3) is located about 300m east of Terminal 1, which you leave at the last exit (departure hall, opposite check-in switch 730-753) and directly to the right. Follow the road and turn right again at the next corner, after about 100m you reach Tor 3.

After issuing the ID card, the group walks back to Terminal 1, where the tickets can be purchased on round-trip counter. Then the security check takes place (obliquely opposite).
After check-in, the bus is waiting for us..

Important! - During the tour (unfortunately it does not go without rules)

Since we are on the premises for four hours and can also walk around, there is also the important information and hints on the safe and smooth running of the spottertour:

The group is accompanied by an employee (with accompanying staff) of FRAPORT AG, who bears all responsibility for the spottertour and thus has the say.

It is absolutely necessary to follow instructions of the escort personnel as the apron is the airport's operating area!

It is not permitted to get up and walk around the bus during the trip. Please pay attention to the colored ground markings when you leave the bus and enter the apron.

Red and white lines mark the rolling and travel routes of the aircraft and the ground vehicles, which are constantly on the road and must not be exceeded. The climbing of equipment, stairs or parked vehicles etc. is not allowed, as well as the touching, handling etc. of the parked aircraft.

On the ground there is constant vehicle traffic, so when leaving the bus it is important to ensure that no vehicles are approaching directly and that you are within the markings.

These rules must be strictly adhered to, the tour will be interrupted and ended immediately if the rules are disregarded by one or more participants.

If you have any further questions, please contact tourinfo2@frankfurt-aviation-friends.de

I wish you much pleasure and a successful spottertour!

Yours,

Ralf Drews
